

# EAT FRESH

Welcomes you

# Title Slide

Project Name: E-commerce website for Fruits & Vegetables

Presented by: Sumit Ghodke

Course: Mini-project

Instructor: Mr. Laxman Taur sir

An illustration on a green background featuring a jar of red jam with a slice of orange on top, a watermelon with a slice cut out, several strawberries, and two pears. A large yellow starburst is positioned behind the watermelon. A red star is near the jam jar, and a purple star is near the strawberries.

# INTRODUCTION

## Overview:

Welcome to "Eat Fresh," an online platform dedicated to providing fresh, organic fruits, vegetables, and dry fruits.

Our aim is to make healthy eating accessible and convenient for everyone.

## Purpose:

The purpose of this project is to develop a user-friendly website where customers can easily browse and purchase organic produce. We focus on high-quality products, intuitive navigation, and seamless shopping experiences.

# WHAT WE PROVIDE

To make you healthy.

**Fresh fruit**

(e.g. apples, banana, kiwi)

**Fresh  
vegetables**

(e.g. carrots, spinach, onion)

**Dry fruits**

(e.g. almonds, kaju)

# TECH STACK

Languages and Tools Used:

HTML: Structure of the website.

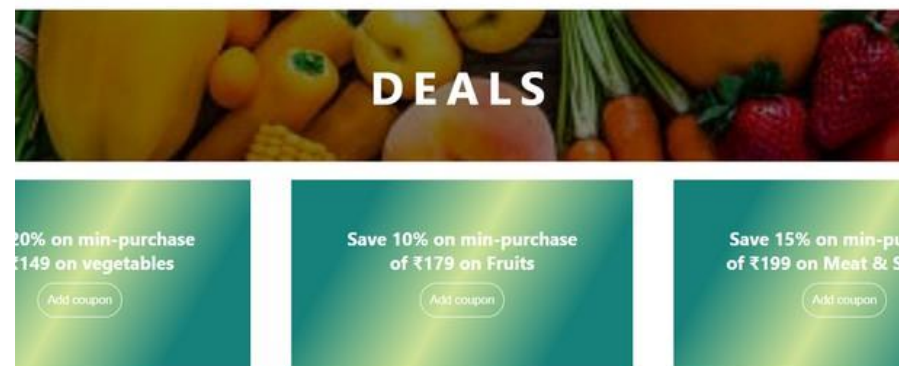

CSS: Styling and layout.

JavaScript: Interactive features and dynamic content.

Version Control: Git and GitHub for project management and collaboration.

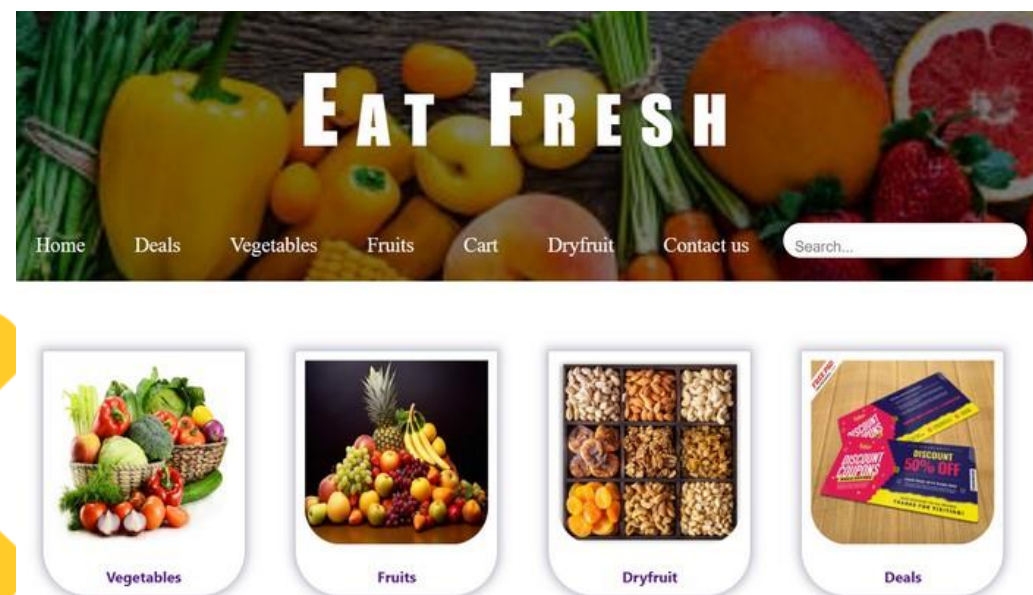

# KEY FEATURES

why our website is best in this domain

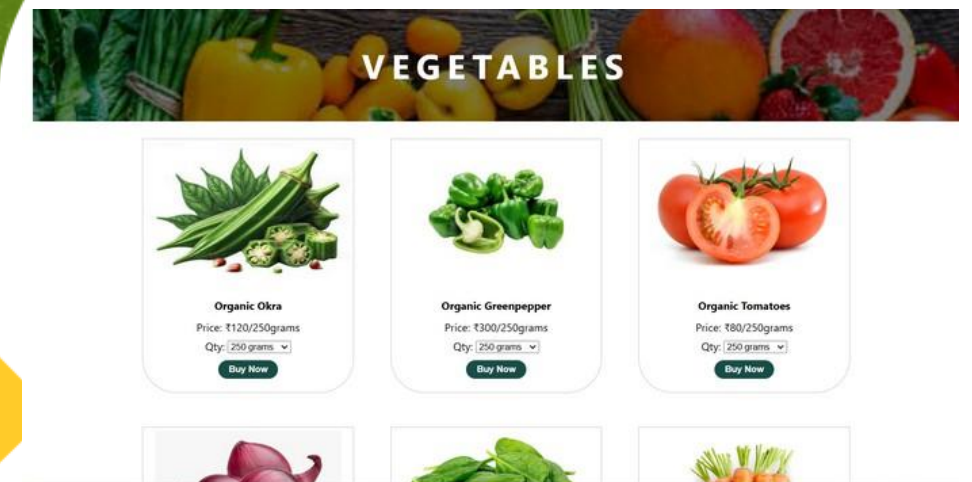

## Deals/offers

provides latest offers to users

## Responsive Design

Website adapts to different screen sizes, ensuring a seamless experience across devices.

## Product listing

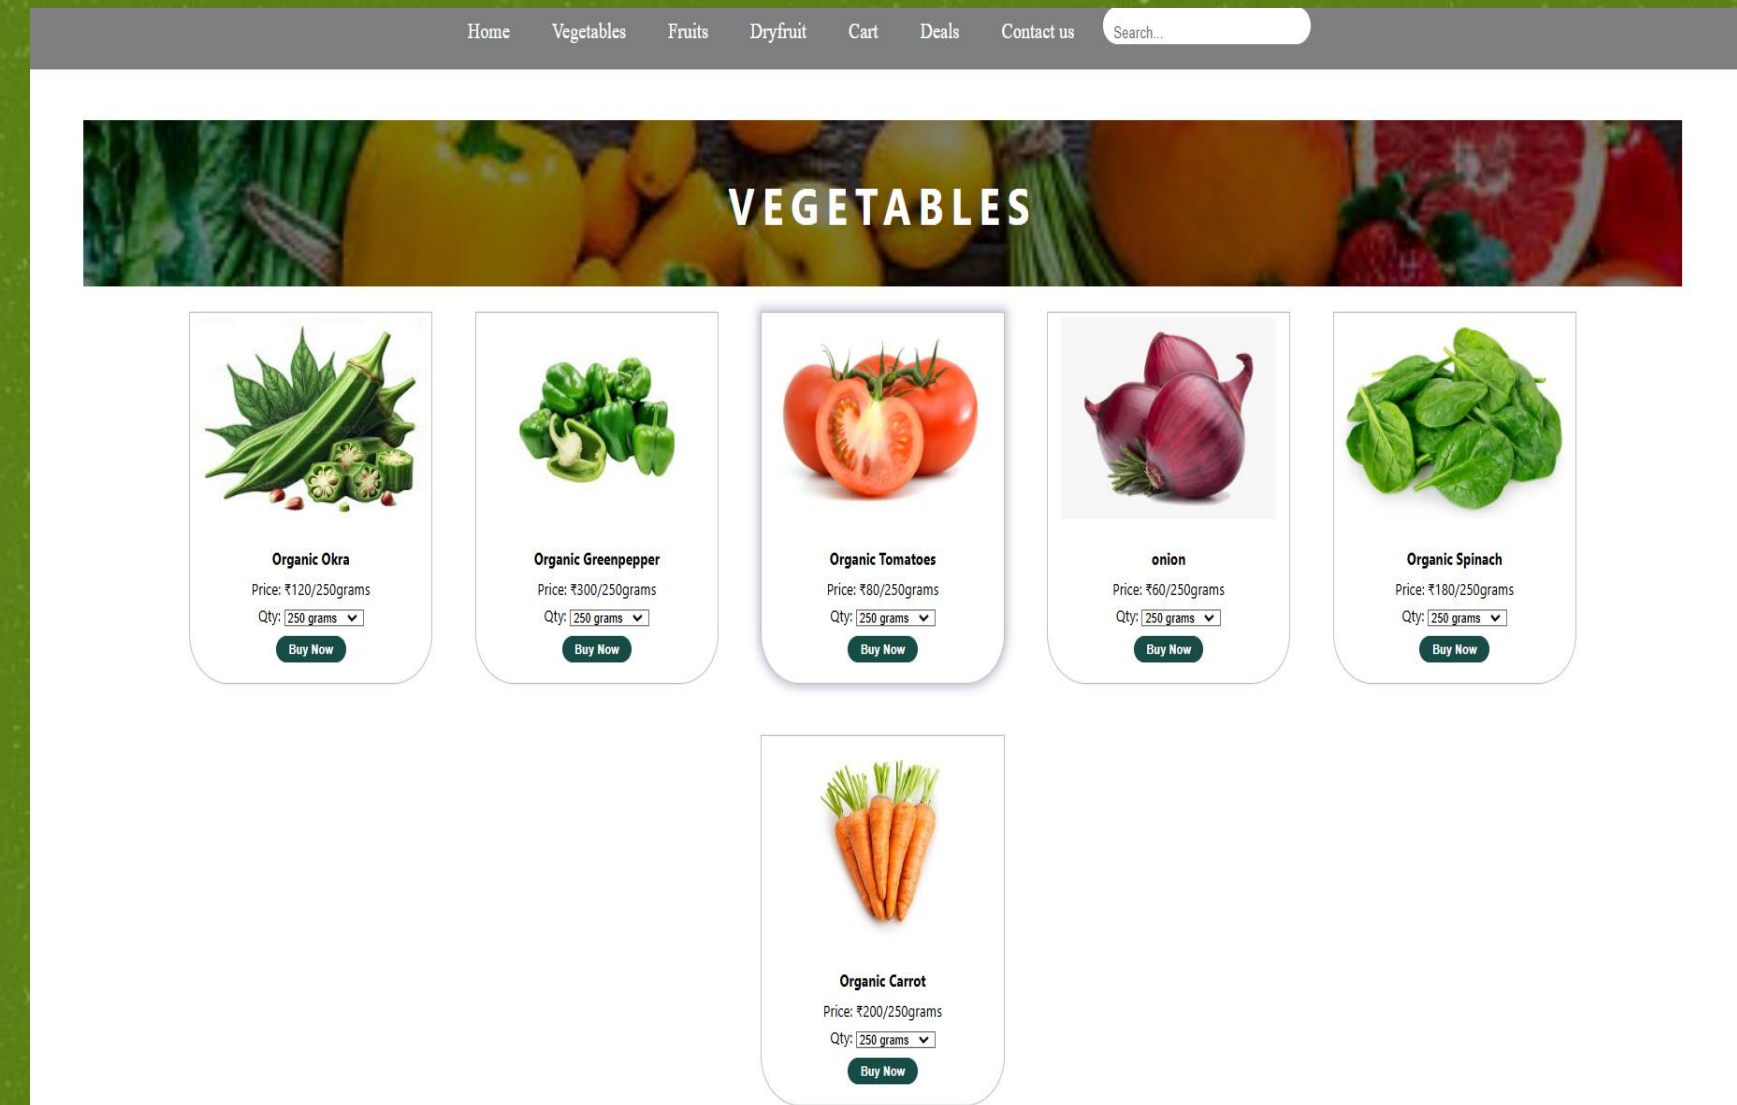

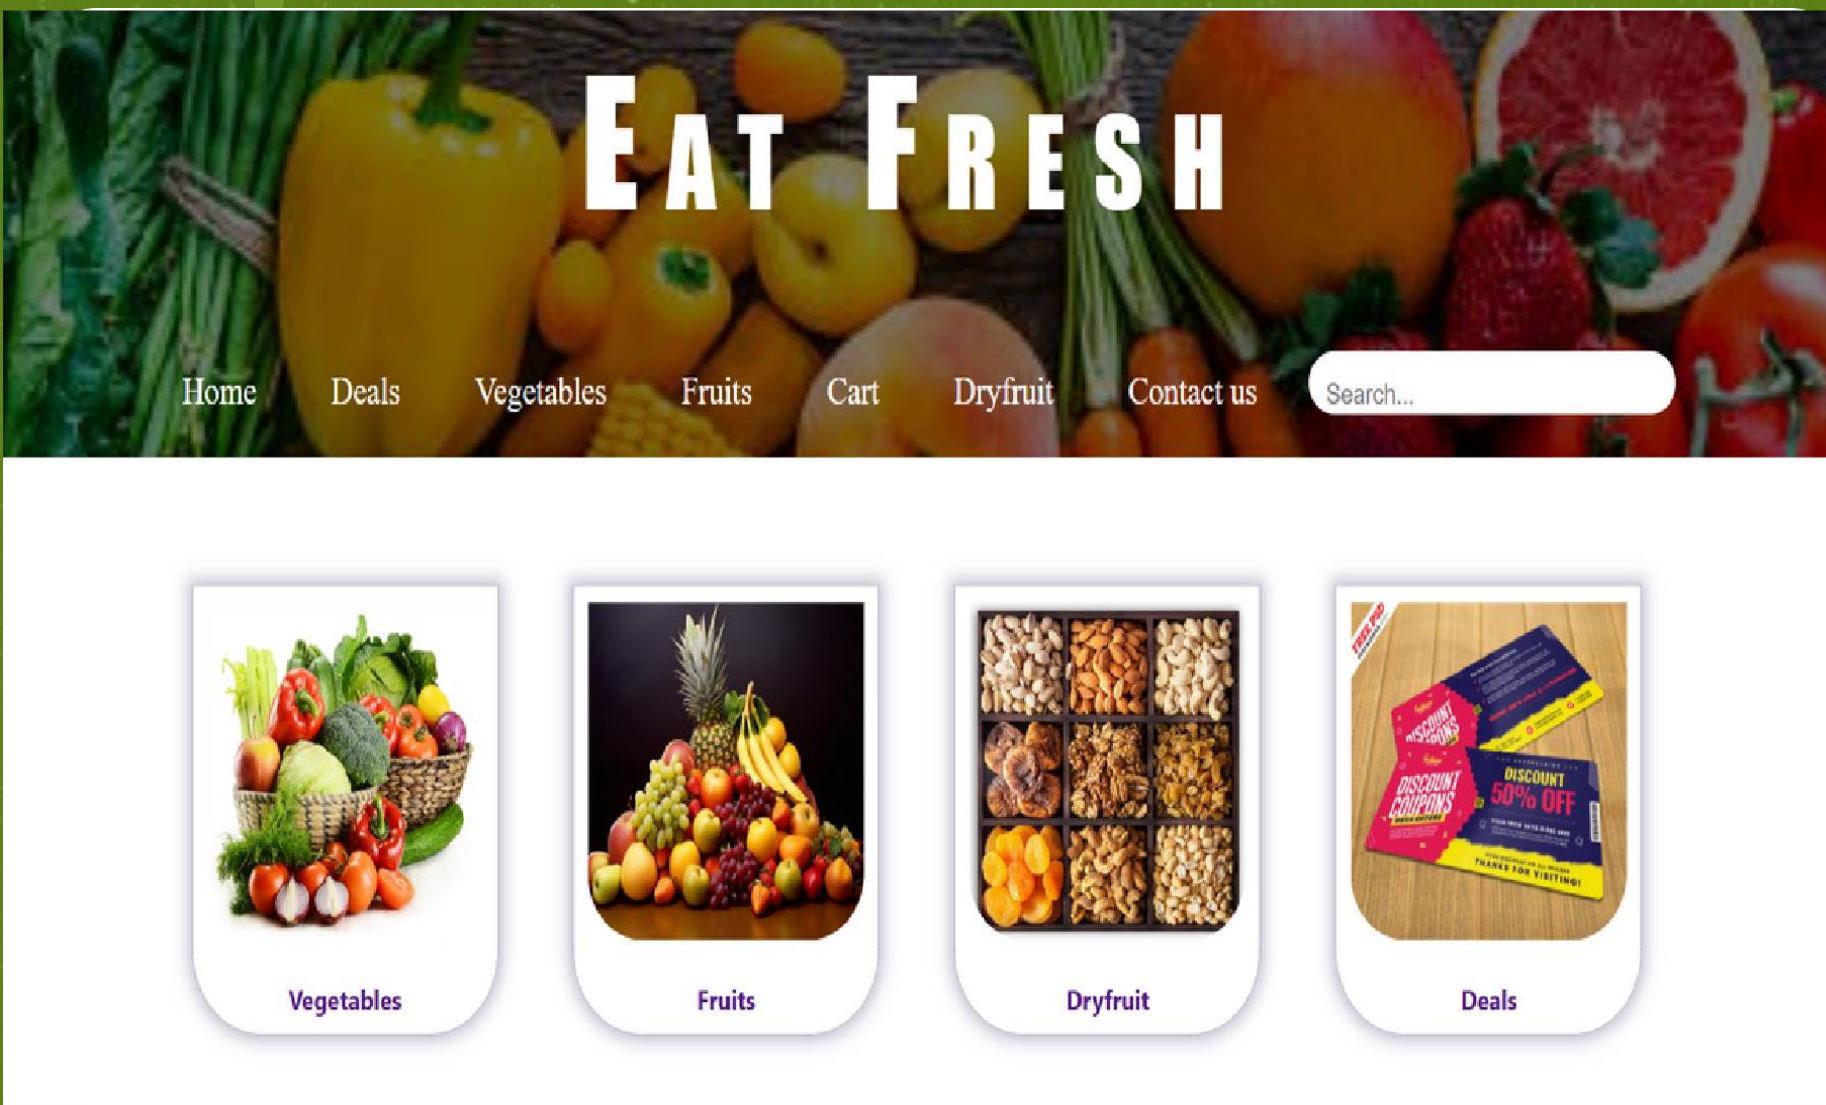

seamless product listing and user friendly ui
